DETAILED ACTION

Applicants' response of 6/18/07 has been considered with the following results.

The FINALITY of the previous OA Is hereby withdrawn and the amendment has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 6 and 9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As presented, the detector element now performs two diverse functions, i.e., one of detecting and one of calculation. However, this disagrees with the disclosure with respect to figure 15 as originally filed, and as further defined by dependent claims 7 and 10.

Hence the independent claims are now drawn to subject matter not previously presented/disclosed in the claims, (i.e., new matter).

Conclusion

Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of their respective parent claim, (and any intervening claims), providing their respective parent claim(s) were properly corrected for the above noted 112 problems.

Claims 2-5 and 12-13 remain allowable over the art of record.

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
